Overview

This release focuses on improving user productivity, financial visibility and payment tracking within AdPoint. Highlights include a redesigned Home Screen with personalized dashboards, enhanced lockbox payment processing and new tools to support account reconciliation. In addition, several issues affecting campaign planner and classified liner logos have been resolved.

Audience/Role	Color
General/All	Blue
Finance	Orange
Sales	Green

New Features

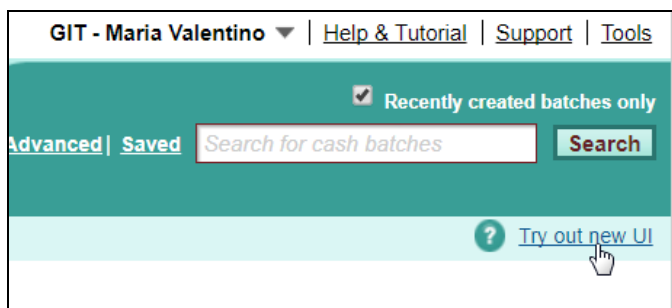

New Look/Feel (ADVNEW-6817)

The **AdPoint Home** screen has been redesigned with a cleaner, more intuitive layout.

Benefits:

- Users can now create role-based dashboards tailored to their daily responsibilities.
- Users can quickly identify outstanding orders and tasks through color-coded status indicators.

To explore the new look/functionality, click on the *Try Out New UI* link in the upper right-hand corner of the **AdPoint Home** screen.

External # Field (ADVNEW-4526)

A new field called *External#* has been added to the **Lockbox Payments** screen.

Benefits:

- Eliminates manual tracking of lockbox check numbers.
- Improves payment traceability and audit readiness.
- Keeps payment information centralized in AdPoint.

The screenshot shows the 'Detail' section of the Lockbox Payments screen. The 'External#' field is highlighted with a red arrow. The form includes fields for Receipt ID, Cash batch, Receipt date, External date, Issuing bank, Payment type, and Collector.

Unvoiced Ads Totals Field (ADVNEW-8170)

A new field called *Unvoiced Ads Total* has been added to the **Customer Detail Page**.

Benefits:

- This field improves the account reconciliation process by providing the outstanding balance remaining to be invoiced to customers.

The screenshot shows the 'Financial history' section of the Customer Detail Page. The 'Unvoiced Ads Total' field is highlighted with a red box. The table displays various financial metrics and their corresponding amounts.

Financial history		
Summary		
Unallocated cash receipts	-19,260.82 \$	unallocated cash receipts
		CIN: -1,998.82 \$ GPG: -17,262.00 \$
Unpaid Invoice Total	128,961.41 \$	total due on all invoices
Unvoiced Ads Total	55,625.00 \$	Total due on all unvoiced ads
Overpayments on Invoices	0.00 \$	total overpaid amount in invoices
Statement Balance	109,700.59 \$

Bug Fixes

Campaign Planner Edit/Edit Targeting Links (ADVBUG-8675)

An issue has been corrected where using the *Edit* and *Edit Targeting* links in the Campaign Planner ad grid was not resulting in the required pricing adjustments. The *Edit* and *Edit Targeting* links can now be used again for normal editing/pricing and targeting functionality.

Classified Liner Ad Logo Time Out (ADVBUG-3090)

An issue related to time outs happening when deleting Classified liner ads has been corrected. Logos can once again be deleted from the *Classified Logos* section on the **Customer Detail** screen without error.

Preparation for Version 10

 **Classic Home Screen View:** The new **AdPoint Home Screen** will become the standard experience with the release of AdPoint Version 11 in January 2027. As part of this update, the **Classic Home Screen** will be discontinued. We recommend switching to the new **Home Screen** now to familiarize yourself with the updated layout, personalized dashboards and color-coded task indicators before the transition occurs.

Known Issues

 **Unvoiced Ads Total Missing Performance IQ Ads:** Performance IQ ads are not currently included in the **Unvoiced Ads Total** calculation. Users should be aware that the reported total may not reflect all unvoiced advertising activity.

Workaround: Review Performance IQ ads separately when validating unvoiced ad totals.

Planned Resolution: A fix is scheduled for AdPoint Version 10.5, planned for October 2026.
